

Lancashire Automobile Club

A Twilight Tour of the Ribble Valley Tuesday 10th September 2019

Following the great success of the 'Taster' evening tour in June, don't miss out on another opportunity to enjoy our splendid countryside and a little 'light-hearted' map-reading.

Open to any vehicle that is correctly registered, licensed and has a valid MOT (where applicable) – **your cherished car is all you need.**

The route is approximately 54 miles in length and navigation is by OS Landranger map 103 which crews will need to supply. The route will be on coloured roads only and the correct route will be determined by whole grid square blackspots (avoid), spot heights, grid square diagrams and features all shown on the OS map.

There is no timing element on the event but code boards (via boards) will be placed at various points to enable entrants to determine that they are on the correct route. In addition, at check points, there will be two questionnaire sheets relating to motorsport (so start swatting-up!)

The start and finish is Whalley Golf Club, Portfield Road, Sabden, BB7 9DR (map ref 746 360) with the first car setting off at 17:45hrs.

The event is limited to 35 cars on a first-come-first-served basis and the entry fee is £20.00 per vehicle (two occupants only) which includes supper. Additional crew members are permitted providing that they pay £8.00 each for supper.

To enter, complete the entry form attached and either return with your remittance or make payment electronically by BACS.

We look forward to seeing you on the night!
